📁 WORK EXPERIENCE

Nile Developments

Orientation Management System

Aug 2023 – Oct 2023 | Cairo, Egypt

- Developed a comprehensive orientation management system as a Progressive Web Application (PWA) for the sales team at Nile Developments.
- The application significantly improved the process of exchanging orientation requests, leading to more efficient collaboration between sales representatives and their managers.
- Designed an intuitive dashboard within the application, allowing managers to monitor orientation schedules through an in-app calendar.

React - TypeScript - SASS - REST API - PostgreSQL - WebSockets

Visits Form App

Feb 2023 – Mar 2023 | Cairo, Egypt

- Developed a Progressive Web Application (PWA) using React for Nile Developments to capture and store visiting clients' details, with direct integration into a Google Sheets document.
- The Sales team utilizes the information during client consultations.

React - JavaScript - CSS

Online Veterinary Clinic, Veterinary Clinic Website

Cairo, Egypt

- Developed a fully-functional website for an Online Veterinary Clinic utilizing Next.js as the development framework from the ground up.
- The website is equipped with multilingual capabilities to accommodate users from various linguistic backgrounds.
- Website Link: <https://online-vet.vercel.app> 🌐

Next.js - JavaScript - CSS
